SOFTWARE ENGINEER

I am Shahzaib, a Software Engineering graduate with two years of experience with a JavaScript, React, Next.js and Node.js. I love to build scalable web applications and React Native apps, and am skilled in developing impactful products that create values and solve problems. I am looking for a position where I can truly make an effect and contribute to a vibrant team.

PROJECTS EXPERIENCE

Project: RESTful API for Ecommerce Platform

Tech Stack: Next.js, MongoDB, JWT

- Developed a full-featured e-commerce platform with user authentication, product management, and order tracking.
- Integrated Stripe for secure payment processing.
- Wrote unit and integration tests to ensure API stability (Jest).

Project: Real-Time Chat Application

Tech Stack: React.js, Socket.IO, Node.js, Express, MongoDB

- Created a real-time chat system with group chat, typing indicators, and message notifications.
- Used WebSockets (Socket.IO) for instant message transmission.
